

Dear Jane,

When I first arrived in your house Jane, I was fascinated by the vintage feel. Your house and its location is very sunny and quiet, so I am guessing that this was conducive to your creativity.

I am thanking you for this perfect space. It has inspired me to play with the changes of light and shade in the work I made thinking of you.

This is an installation inspired by changes in light and shadow. So, I hollowed out parts of the work to allow the light to pass through. As time passes and light changes, the shadows effected by it change over time.

All the best,
yunxuan shi
